Which aspects of the course were most helpful? Why?

Comments
Lecture, homework, and supplemental resources
Linli Zhao was phenomenal and really was interactive with all of her students, making the class relaxed as well as helpful.
Was well put together and was very clear what we were doing and when it was due
The most helpful aspect was the review before each class to refresh our minds to be able to move forward in the class

The time, classes at 6pm suck
I think the class should be four weeks instead of six weeks. I feel like it's unnecessary for it being six weeks.

Class Lecture, and Office Hrs
How interactive she was
She spoke as clearly as possible and obviously cared about every student in the room
She was very engaging during class and presented material in a concise and helpful manner.
The review before each class on the material we took previously was the most helpful it gave us a refresher and we were able to move on to the next with good understanding. Also the attendance question keeps us engaged and furthering understanding the concept.
